

CELL BIOLOGY

7th March: 10h

Lecture: Cell structure, Chemical Compounds of the Cell

14th March: 10h

Lecture: Membranes, membrane transport, Cell-Cell Contacts

21st March: 10h

Lecture: Vesicular Structures and Transport, Mitochondrion,

28th March 12h

Lecture: Cytoskeleton, Motility

4th April: 10h

Lecture: The Nucleus, DNA and Chromatin Structure

25th April: 10h

Lecture: Cell Cycle, Meiosis, Mitosis

2nd May: 10h

Lecture: Ion Channels, Membrane Potential, Calcium homeostasis, Signal Transduction

9th May: 12h

Presentations
